Subject: [External] the gas pipeline

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

keeping fossil fuels in the ground is critical to the survival of the biosphere we evolved in. alternative energy sources are at hand. not doing so would be a huge betrayal not just to humanity but all the higher forms of life that risk extinction. drop by for tea and i'll explain further. for now, stop this new gas pipeline.....david randell, hiddenite nc
